Background

I have over 30 years of experience as a consultant psychiatrist within the NHS and private sectors.

I became a NHS Consultant in 1978 with the North East Thames Regional Authority working mainly in Essex until 1986 when I made the move to private practice. I held positions as medical director within the Priory and Cygnet Groups before founding Private Psychiatry in 2008.

Relevant Experience

I provide 100 to 120 psychiatric reports per year for use in courts and tribunals.

- 80% claimant
- 20% defendant

I have provided opinions on fitness to plead, issues of criminal responsibility and sentencing recommendations. In civil matters I have prepared reports for compensation claims and claims for wrongful dismissal.

I have received formal training on report writing and speaking in court.

I have also had training in issues of capacity, deprivation of liberty assessments, and I am experienced in assessments of testamentary capacity.

I am a former member of the General Medical Council's panel of Psychiatric Examiners and Assessors and I sat on Fitness to Practice Panels as a Specialist Advisor. I am Medical Advisor for the Institute of Chartered Accountants in England & Wales, Clinical Advisor at the General Pharmaceutical Council, and a Specialist Advisor for the Care Quality Commission.
